**APPLICATIONS
DUE MARCH 15**

MORE ABOUT C.A.N.

ENHANCING DIVERSITY IN NEUROSCIENCE

Interested in neuroscience research or pursuing a neuroscience PhD?

Columbia Access Neuroscience (CAN) is an informative two-day event for students from underrepresented backgrounds who are interested in pursuing a Ph.D. in neuroscience. This fully funded event is an opportunity for students to visit our campus and learn how to compose a competitive Ph.D. application, life as a Ph.D. student, and will have opportunities to network with current faculty and students.

This event is geared for students from early stages of their scientific career to students who are planning on applying to the coming application cycle (sophomore undergraduates to post-baccalaureate students). This visit will be virtual for Spring 2021.

*For eligibility criteria, please see links below.

Applications due March 15 for April 23-24, 2021 session
